- ✓ Delivered as a flexible suite of interactive reports and data files in MS Excel format.
- ✓ Bespoke reports to meet the specific reporting requirements of Local Authorities.

### edge-ucate mainstream

#### PUPIL PROJECTION MODEL

edge-ucate Mainstream is Edge Analytics' pupil projection model, providing a robust and transparent data analysis methodology to support school forecasting in local communities.

### edge-ucate pupil yield

#### ESTIMATING THE PUPIL IMPACT OF NEW HOMES

edge-ucate Pupil Yield provides a detailed data analysis method for deriving pupil yield factors; a crucial requirement in accurate school place planning.

### edge-ucate early years

#### EARLY YEARS FORECASTING

edge-ucate Early Years provides intelligence on the current provision and future need for funded early years places.

### edge-ucate SEN

#### PLANNING FOR SPECIAL EDUCATIONAL NEEDS

edge-ucate SEN provides key intelligence on the current and future profile of pupils with special educational needs (SEN), to support Local Authorities in planning for SEN.

### edge-ucate alternative provision

#### ALTERNATIVE PROVISION FORECASTING

edge-ucate Alterative Provision provides intelligence on the current and future profile of pupils in alternative provision (AP), relating to pupils who cannot access mainstream school.
